

Notes from HMS Playground Committee * June 21, 2010

- **Bob Berliner has agreed to be our Chair.**
- **We reviewed decisions made from the last meeting:**
 - \$50K will not be enough to support a playground structure. More fundraising will be needed.
 - We need to have enough features on the playground so that each grade level can enjoy the playground at each recess.
 - ADA compliance is crucial.
 - Our target date for installation is spring or summer 2011
- **We briefly looked at the Playground Committee Wiki at: <http://hmsplayground.wikispaces.com>**
 - This will be the location for keeping information.
- **Update from our donor:**
 - We could cost out some recently built structures in other towns. it would be useful to include details on the vendors, consultants, and equipment providers that have been used locally.
 - There may be some flexibility on the donation.
- **Tour and Measurement**
 - The Committee went outside and toured the playground. Bob measured possible footprints and we discussed (but did not decide) if we were to keep any current equipment.

Next Meeting:

July 22, 5:30-6:30 at HMS. Exact location in the school to be determined.

Check out the Wiki for updates:
